

SPANISH LESSONS WITH MARIE

Marie teaches group Spanish lessons twice a week in Todos Santos, BCS and offers private individual or private group lessons as well.

She teaches primarily through interactive games, acting, storytelling and lots of laughs.

She finds immense joy and satisfaction seeing students develop their language skills and progress into making meaningful connections with the Spanish-speaking community.

Marie grew up in Texas and New Mexico and learned Spanish at a young age with the local Latino population in her neighborhood. She later studied academically and received a degree in Spanish literature with a focus on Translation and Interpreting. She has a long Spanish teaching history working in private schools with elementary students, home-school programs, as well as private adult group and individual lessons. She is also a writer and just published her first bilingual children's book this year about a choya cactus.
